25 Words	Secure your personal or business data with a 32GB Corsair Flash Padlock® 2 USB Flash Drive
50 Words	The Corsair Flash Padlock® 2 is perfect for transporting and protecting your sensitive business or personal information. With built-in 256-bit hardware data encryption, and access limited by a PIN, you can rest assured your information is safe from unintentional viewing. Built with the same ruggedized rubber housing found on the Corsair Flash Voyager family for durability, your data is protected from the elements as well.
100 Words	The Corsair Flash Padlock® 2 is perfect for transporting and protecting your sensitive business or personal information. With built-in 256-bit hardware data encryption, and access limited by a PIN, you can rest assured your information is safe from unintentional viewing. Built with the same ruggedized rubber housing found on the Corsair Flash Voyager family for durability, your data is protected from the elements as well. Since the PIN keypad is integrated directly onto the flash drive, there is no software to install. Simply enter your own Personal Identification Number and your data is unlocked for use on virtually any PC operating system: Windows, OS X, or Linux—even game consoles. Without the PIN, your information stays secure and inaccessible.
